

Aesthetician Services

Clinical Aesthetician Danielle Trevena works alongside Drs. Cynthia Bailey and Rosy Chattha to provide the best aesthetic skin care services available. We combine dermatologic medical science with aesthetician treatments to address complexion problems for the toughest skin types. We've also developed maintenance services to maximize your skins health and appearance, every day- all year.

Our patients and clients are in for a real treat in our safe and professional setting. Danielle adds her spa experience and passion for patient-client care to our medical office. Prior to joining our practice, she served as head Aesthetician at Coldwater Creek Spa and prior to that, Head Aesthetician at Advantage Body Care in Huntington Beach.

Our goal is to develop aesthetician services to support our patient's skin care needs as well as making them available to non-patients who don't require the care of our doctors.

We invite you to schedule an appointment and refer your family and friends for the finest aesthetician services in a safe, hygienic and professional setting.

Facials

Acne Facial

60 minutes/ 80 minutes w. microdermabrasion

A highly effective, professional acne treatment for acne prone skin. Exfoliation, manual extractions and deep pore cleansing remove pore clogging, dirt and oil to treat blackheads. Our deep cleansing masque reaches deep into pores to treat acne and help prevent new breakouts. Calming antioxidants and sun screen protect your freshly exfoliated skin from sun and environmental stressors. Products are customized for your skin type. Includes a neck, shoulder and hand massage to relieve stress that may aggravate your acne. Recommended at 2 to 4 week intervals until your acne is controlled and then as needed to maintain results.

Microdermabrasion

30 minutes

Professional microdermabrasion brings the life back into your skin. This non-invasive treatment removes dull texture leaving skin vibrant. Repeated treatments will smooth wrinkles, even skin texture and give you an instant exfoliated glow. Exfoliation is an important element of maximizing you skin's healthy appearance on an everyday basis. Microdermabrasion can be done alone or added to any of our facials. Best done at 1 to 2 week intervals until results are achieved (typically in 6 sessions). Maintenance treatments are recommended every 2 to 4 months and can be alternated with light facial peels for the ultimate sustained healthy glow...all day, every day, all year!

Regular Price 90 Special 80

Chemical Peels

30 minutes stand alone/20 minutes added to a treatment

Best done in a series every 2 weeks until results are achieved and then every 6 to 8 weeks. They can be alternated with microdermabrasion or laser/light treatments.

Glycolic Acid/Alpha Hydroxy Acid

Peels are done in progressive strengths for acne and anti-aging treatment goals. They exfoliate to brighten skin, soften wrinkles and dissolve blackheads. The strong glycolic acid stimulates collagen formation.

Salicylic Acid/ Beta Hydroxy Acid

Peels are done in two strength to aggressively treat acne by exfoliating the skin and cleaning debris and blackheads deep in the pores.
